

Science Vision

At Chandlers Ridge, we ignite pupils' curiosity and encourage them to confidently explore and discover the world around them, so that they develop a deeper understanding of the world we live in and the role science plays in everyday life. We encourage the children to develop their knowledge and understanding of working scientifically and a range of science topics. We promote the use of scientific vocabulary and allow opportunities for mathematical skills to be applied.

Science Principles

Science is engaging and hands on.

Pupils discover concepts through investigation.

Pupils make sense of the world around them through Science.

Pupils are able to make and test their own hypotheses.

Pupils carry out and draw conclusions from an investigation.

Pupils utilise technology and resources to support learning.
